

LESSON PLAN

UNIT/CHAPTER	A Triumph of Surgery
DURATION	2 classes of 40 minutes each
MATERIALS	• NCERT book- Footprints without Feet • Explanatory video • Worksheets
LEARNING OUTCOMES	<u>Students will be able to:</u> • Enhance their appreciation for prose. • Understand the message conveyed through the story that over-indulgence and stress is detrimental to health. • Enhance their vocabulary and understand the usage of words. • Provide appropriate answers which include the required content and expression.
SUGGESTIVE PEDAGOGICAL PROCESS	<u>Questions to test the previous knowledge:</u> • How many of you have pets and how do you take care of them? • What is the importance of consuming healthy food and exercise in your life? <u>Teaching Methodology:</u> • The teacher will provide detailed explanation of the chapter. • She will assist the students to comprehend the theme of the story. • Assist students to express their opinions about the questions in a coherent manner. • The teacher will explain the story by making the difficult words clear. <u>Teaching Aids:</u> • PPT for recapitulation of the chapter. • NCERT Textbooks.
SUGGESTIVE FACILITATION ACTIVITIES	Classroom discussion based on textual topics. Notebook evaluation. Oral tests. <u>Value based questions:</u> • In what way was Mrs. Pumphrey like a parent blinded by love for her child? How can such love be counter-productive?

	• Tricki is a victim of over-indulgence. Comment. <u>Periodic test:</u> We assess creativity and critical thinking through Paper Pen Test. Average of the best two tests to be taken.
PEDAGOGICAL STRATEGIES	ART INTEGRATION: The students will be guided to make a chart containing essential elements of a healthy diet and showcase it to the junior classes. INNOVATIVE PEDAGOGIES: • Powerpoint Presentation used as a visual aid to enhance the understanding of the poem. • Worksheets consisting of reference to context, short question answers and long question answers will be shared with the students. • A Youtube link of the self explained prose will be shared with the students for recapitulation and better understanding. CO-SCHOLASTIC ACTIVITIES: The students will be taken for a walk and explained via charts and demonstrations about the importance of balanced diet. A salad making competition will also be conducted.
MODIFICATIONS FOR SPECIAL NEEDS	Remedial classes via Audio-visual implements, practical demonstrations and extra time.
INTERVENTIONS	• Face to face clearing of doubts in the class. • Taking queries through online meeting apps.
HOMEWORK	• Fairing out the given question answers in their notebooks. • Completing the worksheets provided by the teacher. • Preparing for tests/assessments after the completion of the chapter.
REFLECTION	• We as teachers learnt that new and innovative techniques must be harnessed to provide attractive content for the students. We also learnt how monotonous topics like exercise and healthy diet can be explained with a comic relief. • Being the first unit, this would help accommodate the students to their newly acquired grade X. • Students would take away the concepts about ill effects of over-indulgence and the importance of exercise and a healthy diet.
